

DEVICE AND METHOD FOR AUTOMATICALLY TUFTING UPHOLSTERY

Inventor: Jonathan Nicholas WHALEY

Attorney Docket No. 32822/US/1

1/13

Attorney Docket No. 32822/US/1

A schematic diagram of a vertical assembly. At the top, there is a horizontal component with two rounded ends. Below it is a long vertical rod labeled 12. Further down, there is a horizontal component with two rounded ends, labeled 14c and 14d. Below this is a vertical rod labeled 10. Further down, there are two rectangular blocks labeled 16, one on each side of the vertical rod. Below the blocks is a horizontal line labeled 20a on the left and 20b on the right. A horizontal component with two rounded ends is labeled 14b. To the right of this component is a label 14c. At the bottom, there is a rectangular block labeled 18, which is partially submerged in a liquid. The liquid is labeled 14a. The block 18 is mounted on a base labeled 34. The base 34 is shown in cross-section, indicating it is fixed to a surface.
